

COMPANY PROFILE

ABOUT US

Company info: Childcare Management Solutions is a company designed to help improve childcare centers around the world by giving center owners and directors the tools, systems, and coaching they need to improve their businesses, grow their profits, and manage their time effectively.

Rather than spending their time putting out fires, we will teach owners how to implement best-practice systems so they can grow, thrive, and have the time to enjoy their success. CMS brings freedom and success to those who are called to care for our children, releasing them from what feels like constant crisis management.

VISION AND GOALS

VISION

Enhancing childcare through greater provider support.

GOALS

We want to help childcare center owners boost their impact, grow their profits, and improve their center's culture. This will lead to reduced turnover, less burnout, and improved lives of childcare providers, their families, and the community they serve.

TARGET MARKET

- Childcare center owners
- Directors and administrators
- Educators and caregivers
- Aspiring childcare professionals

FRAMEWORK / METHODOLOGY

CARE4 Method:

- C – Culture: Positive environment for staff and families
- A – Administration: Efficient processes
- R – Revenue: Financial growth
- E – Expense: Cost management

LEADERSHIP AND TEAM

- Led by Debra Rinell, an experienced educator and childcare advocate
- Supported by a team of childcare experts, mentors, and coaches
- Team focuses on guidance, growth, and operational success
